Subject: Partial Compliance to California Proposition 65

All of Drossbach’s products with the exception of our “FR” (Flame retardant) products are compliant with The California Proposition 65. Any products, that the 4 & 5 digit of our (15 digit) part number is a” FE”, “FP”, “NN”, “V0”, “VE” & “VP” are not compliant (see attached highlighted “FR” codes not compliant in Dross-004). They are not compliant due to the presence of 2% Antimony Trioxide (Sb2O3) as part of their formulation package. Antimony Trioxide is listed on the 2nd page of California Proposition 65.

As for us applying a Prop. 65 Warning label, we would only apply one if “we” were shipping directly into California. Whether you are re-packaging product into unique quantities or shipping full box quantities to California, you would be required to put a warning label on your boxes. If you have any other questions or need more information please let me know. Have a great day.

Best Regards

Neil Coleman
