

NU-FLEX PROTECT SP

NU-FLEX PROTECT SP

Thermal Protection

Uncoated & Coated Sleeving

Uncoated braided fiberglass

High temperature fiberglass

Option: Natural (tan), red, blue, black, yellow, orange
Other colors upon request

Low: -70°C (-94°F)
High: 650°C (1200°F)

Thermal insulation and ignition protection
High performance vehicles application
Spark plug boots and wires protection

RoHS, REACH, CMRT

PHYSICAL PROPERTIES

Physical properties	Spec	Value
Operating temperature	-	-70/650°C (-94/1200°F)
Abrasion resistance	-	excellent
Flammability	SAE J369	does not ignite (DNI)
Chemical resistance	Resists the majority of chemicals and automotive fluids	

DIMENSIONS

Indicative nominal Ø (ID)		Lengths (L)	
inches	mm	inches	mm
3/4"	19	5 1/2"	140
1"	25	6"	152
1 1/4"	32	8"	203
1 1/2"	38		
1 3/4"	45		

PACKAGING

Cardboard boxes
