

LANGOFLEX

NTW

LANGOFLEX NTW is a tough, yet lightweight and flexible sleeving manufactured from PA 6 multifilament braided in a tight construction. This construction provides an excellent abrasion and cut-through resistance protection and also has an excellent chemical and fungus resistance. This solution is especially designed for installations where continuous rubbing or contact with metal body parts is likely to occur.

PRODUCT FAMILY: Expandable Sleeving

CONSTRUCTION & MATERIALS: Braided PA multifilament

STANDARD COLORS: Black

TEMPERATURE OF USE: -40/125°C (-40/257°F)

TYPICAL APPLICATIONS:

- Maritime
- Heating & Sanitary
- Renewable Energies
- Construction
