

LANGOFLEX

PPS

LANGOFLEX PPS is a high temperature & non-flammable expandable sleeving made of PPS.010" (0.25mm) monofilaments braided into a tubular sleeve. It provides a good mechanical resistant yet flexible protection. Its expansion ratio allows an easy installation over irregular shapes.

PRODUCT FAMILY: Expandable Sleeving

CONSTRUCTION & MATERIALS: Braided PPS .010"
(0.25 mm) monofilament

STANDARD COLORS: Black

TEMPERATURE OF USE: -40/200°C (-40/392°F)

TYPICAL APPLICATIONS:

- Automation & Robotics
- Agriculture
- Railway
- Maritime
