

NU-KOOL

T2-G

NU-KOOL T2-G is the lightweight version of the NU-KOOL T-G. It is a reflective sleeve made of a tubular fiberglass braid wrapped with an aluminized foil. Its design provides an excellent thermal effectiveness by reflecting the heat radiations coming from the surrounding equipments.

PRODUCT FAMILY: Reflective Sleaving

CONSTRUCTION & MATERIALS: Tubular braided fiberglass with aluminized foil lamination

STANDARD COLORS: Silver

TEMPERATURE OF USE: -40/200°C (-40/392°F)

TYPICAL APPLICATIONS:

- Recreational vehicles
- Industrial Equipment & Machinery
- Maritime
- Trucks & Transportation
