

NU-

SHRINK

NU-SHRINK is a tubular woven sleeve made of polyethylene monofilaments with polyester multifilaments. This heat-shrinkable protection guarantees a perfect fitting even on irregular shapes with narrow bend radius, such as curved hoses or tubing. Its very flexible yet tough construction provides a good mechanical & abrasion protection but also sound dampening properties.

PRODUCT FAMILY: Shrinkable Sleeving

CONSTRUCTION & MATERIALS: Woven PE modified monofilament & PET multifilament

STANDARD COLORS: Black

TEMPERATURE OF USE: -40/125°C (-40/257°F)

TYPICAL APPLICATIONS:

- Agricultural equipment
- Trucks & transportation
- Recreational vehicles
