

NU-SLEEVE

SG-240

NU-SLEEVE SG-240 is a fiberglass braided sleeve coated with a special high temperature silicone rubber. It is therefore an excellent thermal and electrical insulator, with high dielectric properties (Grade A sleeve) and high temperature of use (240°C/464°F). NU-SLEEVE SG-240 is non-flammable and has good mechanical properties.

PRODUCT FAMILY: Coated Sleeving

CONSTRUCTION & MATERIALS: Braided fiberglass with a silicone rubber coating

STANDARD COLORS: Red oxide

TEMPERATURE OF USE: -80/240°C (-112/464°F)
NEMA Class H

DIELECTRIC GRADE: Grade A

TYPICAL APPLICATIONS:

- Fire Trucks & Ambulances
- Outside applications
- Renewable Energies
- Construction

PRODUCT CERTIFICATIONS

- RoHS
- REACH
- CMRT

Drossbach
